DJ SET REQUIREMENTS

Audio Equipment

- A professional light and sound setup that suits the range of my music
- Pioneer DJM-900NXS2 mixer (or newer model)
- Three (3x) Pioneer CDJ-3000 players (updated with the latest firmware) or CDJ-2000NXS2's
- 4 LAN connector cables to connect the mixer and the 3 CDJs
- 1 x switch box for the LAN connector cables
- Stereo booth monitors

Technical Support

- A sound engineer on-site before and during my set
- A stage contact/FOH to assist with setup/soundcheck

Hospitality

- Water (still/sparkling), tea, and some fresh fruit in the booth
- One clean towel in the booth

Additional Notes

- Please ensure all equipment is tested and working prior to the event
- Setup time required: 30 minutes for soundcheck
- Any questions regarding technical specifications should be directed to dj@henners.bio

Thank you for ensuring these requirements are met for an optimal performance experience.
