Short, medium, and long versions

Short bio

Henners is an Amsterdam-based ecstatic dance facilitator and DJ creating grounded, emotionally intelligent music journeys for conscious dance floors, retreats, ceremonies, and festivals.

Medium bio

Henners guides ecstatic dance journeys through arrival, flow, rhythm, chaos and release, integration and play, grounding, then stillness. Shaped by Amsterdam's conscious dance scene and years of sets at Odessa and community gatherings, his work is not only musical but relational: reading the floor, protecting the arc, and giving the body permission to feel.

Long bio

Henners is an Amsterdam-based ecstatic dance facilitator and DJ creating conscious dance journeys for movement communities, ceremonies, retreats, and festivals. His sets follow an arc inspired by the hero's journey and 5Rhythms: arrival, flow, rhythm, chaos and release, integration and play, grounding, then stillness.

His work grew through Amsterdam's ecstatic dance scene, including years of community floors, Odessa gatherings, cacao ceremonies, festivals, and intimate movement spaces. Rather than treating a set as a playlist, Henners works with the emotional field of the room — tracking energy, protecting transitions, and supporting both joy and tenderness when they arise.

Musically, his sound draws from global rhythms, earthy grooves, deep percussion, warm melodic textures, and spacious integration tracks. The aim is simple: help people move honestly, feel safely, and reconnect with themselves and each other through dance.
